salaries of City Officers.

STIGHTLY MISTAKEN.—The Sentinel is mistaken in regard to the salary of the City Clerk—It is not \$2,500,00 as the Sentinel states, but \$2,-00, of which \$300 is paid to assistants leav ing the maximum compensation of the City Clerk, \$1,200,00. As the Sentinel has probably been misled by some individual who had nothing but the good of the city in view, we trust it will now do justice to the City Council by correcting the error.—News of yesterday.

It is the News, not the Scatinel, that is "slightly mistaken." We take the following resolution, reported by the Committee in charge of the sulject, from the official copy of the Common Counell proceedings, as published in the News of Sat-

Resolved. That there be and hereby is appro priated as an annual salary commencing on the second Tuesday in April 1856, to the 2,000.00 Comptroller, per annum, do. for Clerk hire,

We think this compensation ample, and that no good reason exists for adding \$500 to the sum paid to the Comptroller and \$1000 to that allowed the Clerk house, or other private Business House, for the dividends. same time and labor which the city pays \$2.00

The allowance of \$2000 to the City Attorney is equally out of proportion to the time and labor which he gives to the public service. It is at least \$500, and many think \$1000 too much. We private employ, "a fair day's wage: for a fair day's work;" but to pay more is extravagance.

We learn that the Committee of the Common winter, several guilders for a German He then Council have been for some time considering the control of the Council have been for some time considering the council have been for some time considering the coun

The Know Nothings hold the Republican of for the first few nules out of the city, but we trust ganitation of this State in their own hands and it will be arranged. The President of the Ma & ganiation of this State in their own hands and the State Council persistently refuees to give up. The Milwaukee Sentinel, Madison Joernal, and those who follow their lead, regardless of the tag they fight under, provided they can share in the plunder, cordially support the "arrangement"—Badger State.

The Milwaukee News and Madison Argus are jointly responsible for the falsehood which the Badger State thus copies and endorses. It is quite out of the question to expect either the Arque, or Nes. to retract even an admitted and faith, for a common advantage. No terms were transparent fabrication; but we do look for hiter insisted on by the Miwarkee & Beloit road which that Company were unwilling to accede to in the treatment at the hands of our old friend and contemporary of the Badger State. We therefore desire it to take special notice that we utterly deny, in the first place, its statement that the Know Nothings control the Republican organization in this State. And we deny, as emphatically, in the second place, that the Sontine is, was, or will be a party to any such "arrangement" Should the "Know Nothings" ever get control of the Republican party in this State, we, for one, will quit it on the spot.

Now it is evident enough that the ratural course of said Road would be directly to Milwankee, thus giving this city a speedy, cheap and direct communication, for the transporter on the South-West. To accomplish this desirable object, it only remains with us to complete the connection, by building the projected road from Milwankee to Beloit, interesting with said Racine and Mississippi Road cither at Ellhorn or Delayan, and opening to our ample harbon new sources of profitable trade, extending far into the West and South-West.

MILWAUKEE DAILY SENTINEL, TUESDAY MORNING, APRIL 29, 1856.

A correspondent of the St. Louis Republican, | vriting from Lecompton, Kansss, on the 19th, tells the following story. We presume this is the foundation of the fresh outbreak in the Terri-

vesterday, but was prevented by forcible tes.st-ance on the part of Wood's friends. Finding of all, and would gladly publish it in fill if we had room, but must content ourselves with a few had room, but must content ourselves with a few extracts, and remarks

I noticed a statement in your paper the morn ing, headed "News from the Straits," which you will please correct as follows:

The propeller Lady of the Lake did get to the North Fox Teland when the schooner Greecent was strand d, and brought from there all the freight and trape that were saved from the wreak, the versel being a total local. I would state further in regard to the nee, that we could see no make the thing to the local that we could see no make the thing the property and that the could be seen to the could be seen to

waret within ten miles of the Beavers, and that the propeller Lady of the Late did not get to the Beavers. I do not think the Straits will be open before the loth of May.

Republican State Conventian. Our readers are aware that the regularly constituend State Committee have called a convention to meet on the 14th of June next to appoint describes to the National Convention to be held at June deliber on the 12th of the meant. 'miadelphia on the 1", h of the same month Croce upon the heals of this, appears a call signed by several editors, for a Mars Convention to be heal at the same time and place and for the same pulpose. Without stopping now to comment upon the causes which have led to this last m it in ent, or to speculate upon the motives which have prompted it, we must say that we regard it as il much and anothed for calculated to produce suspicion et d'disord or a time when confidence and united action are of the last importance. We are upon the eve of an important Pres

dential contest, more important in view of the single issue that is presented, and the effect its result will have upon the country, than any we have ear had. It is a contest between the two great intagonisms of the country, Freedom and Slavero—between the Freenen of the Vorth on the one side, and the advocates of slavery and through the very hourt of that nich district of the trough the very hourt of that nich district of country from which the Cheago and Cheag read derives its chief revenue. Milwanker is never Buffalo by 90 miles than Chicago. A hine of propellers will make regular trips between the two ports the present season, at a reduced rate of two ports the present season, at a reduced rate of treight and insurance, as compared with Chicago, thereby making a just distinction between the two cities in favor of Milwanker, which we have bitherto failed to secure, the effect of which cannot fail to be beneficial to us.

The Ordinance of '52 fixed the salary of the Task, who can predict the following day that the watch was found in the house. He remained there several days in the hope of getting some information of his lost treatment of the following as the most of the following as the following of the following in the fillowing in the following in the nope of getting some information of his lost treasure, and was finally compelled to dispose of his watch to raise finds sufficient to reach his home. He returned to Wisconsin leaving his wife at her father's. While at home he disposed of some property and finally suc ceeded in getting together a som of money suffi-cient to return and bring his wife back to Wis-consin. Two weeks ago he returned to his fath-crin-law, shouse, and while there he was inform-ed that Lightfile had recently purchased a house and lot, for which he paid \$225. Knowing that his brother-in-law could not hone-tly have come in possession of such a sum of money, he set about making some inquiries into the putchase, when he ascertained that he drew the money from a bank in Schepectady. He then ascertained that the deposit he made was bills on the Union bank of this city, and upon coming to this city he was informed that some of the clarks had a state of collection of archapture downer the and lot, for which he paid \$225. Knowing that day's work;" but to pay more is extravagance.
And the fact that the public, not private individuals, have ito foot the bills, is a reason, not for greater liberality, but for greater care and economy in the disbursement of money.

POLICE COURT, APRIL 28. BRFORE CLINTON WALWORTH, POLICE JUSTICE.

The following persons were arrested and fined \$2 each, for discharging firearms within the city limits the day previous, Sanday: Andrew Wishhart, David Merry, Charles Beck, Joseph Lane, and John Roach. George Hurd and Edwin Bisha, for being drunk, were each fined \$1.

Woman Whipping Again.—A man named Timothy Galvin, for beating his wife, chasing her into his neighbor's house, and attempting to heat her there, and, for being drunk and disorderly, was sent to juil for twenty dnys, in

default of a fine of \$10 and costs.

The wife refused to complain in this case; the officer made the complaint, stating that he had frequently been called to stop the rows, and thought it his duty to com-plain. Perhaps the woman was afraid to complain, for fear of another heating; or, perhaps has a family of young children, and dure not complain of their brutal father, fearing that it may take from them all the earn logs saved by her for weeks or months; or, looking into the future, if her husband is fined, they will have to borrow the money to meet the fine, and pay it back by install-ments for weeks, every one of which deprives her of some of the actual necessaries, in the way of proper food and of the actual necessaries, in the way of proper 1000 and clothing for her family. ras one, would be better. Cuthurina Curatska was arrested by the City Marshal, on a city warrant—the Marshal was the complainant— charging her with depositing fifth in a yard. The cause was continued to May 5th. We wish the city Marshall would take a tour through the yard behind the Police Court, and which is in close proximiry to the Watch House. There is more fifth there deposited than in any place we have ever seen, and it has been so for thre place we have ever seen, and it has been so for three years, and never been disturbed, except by rain storms. We hope this old German woman will not be the only one prosecuted.

Diedrich Schluter and Richard Roe, (the latter we be-

lieve is a K. N.,) were fined \$2 each for shooting within the city limit- on Sunday.

In the matter of the appeal of Mr. J. C. Howard, from the action of the Police Court, in fining him for a violation of the bridge ordinance, his course, Mr. Yutes, has sent us a note, taking exceptions to the statements of our Reporter, who represented Mr. Howard as admitting the violation of the ordinance, by urging his horses into a trot upon the bridge. Our Reporter so understood Mr. How and, and the evidence was to that effect. Mr. Yates, however, denies that Mr Howard made any such admission, and insists that his client did not violate the ordinance.

Tax LIGHT ON THE NORTH POINT.—Capt GOOD Rucs, of the steamer Huron, requests us to notice the fact that at 1 o'clock Sunday morning, while the Huron was A LARGE lot of Fruit and Ocuamental Shrubery passing the North Point, the light went out, and he saw

In reference to the above, and other complaints of the tame nature, we have the Lillwing explanation from Mickett Burks, the Light-house Keeper. He tells us that owing to some defect in the construction of the building. the roof leaks badly, and the light flares so much in a high wind, as to be almost useless. He adds, that on one or two occasions the light has been fairly blown out; but that in calm weather it burns clearly and shows well. Mr. Burks has watched the light closely, keeps everything in good order about the building, and does not seem to be in fault. It is evident, however, as well from his statement, as from the evidence of steamboat and vessel captains, that the Light is utterly unreliable in stormy weather, by reason of the faulty construction of the Light house. This matter should be looked to immediately, and we invite the attention of the Inspector of Lights to it. No doubt the evil complained of admits of a remedy, and it should

PRESENTATION OF A FLAG. -- The Light Guard PRESENTATION OF A FLAG.—The Light Guard mustered in full force at their armory, last evening, to receive, with the customary military honors, a flag, presented to the Company by A. Fixer. Jr. The flag is a very handsome one, of heavy white silk, triumed with gold fringe, and hearing on one side the arms of the State, and on the other an allegorial device, representing "Young America" wrestling with the Lion and the Bear. The flag is mounted on a neat staff, tipped with a gilt spear head, and ornamented with heavy gold cord and tassels. The painting, which is remarkably well done, is the handly work of Mr. Chipson, a young and promising artist.

NICARAGUA.—A dispatch from Washington says Mr. Gladsone's statement in the British House of Commons, that Mr. Dallas had particular instructions for the settlement of the Central

American question, was not justified by facts.
The Administration reserves any decision in the Arbitration offer, until the enlistment matter shall be settled, consequently no instructions ter shall be settled, consequently no instructions were sent out, and none are contemplated. Now, Mr. Dailas writes, that the opposition in Parlaiment was to make a demonstration on the ministry the week after his letter, and both parties were preparing for the contest involving the continuance of Lord Palmerston in power; he says the sentiment of the Knglishmen is growing favorable to the side of the United States, in our controversies. No correspondence had taken place concerning the cell istance operation, and no place concerning the enlistment question, and no notice had been given of intention to answer the demands of our Government.

"The work can sarredly fail of interesting deeply the American reader. Lady Mary lived and wrote in the first half of the eighteenth cantury, when our land was a component portion of the British empire, and consequently he gonite and her fame are ours by inheritance. Her Letter will be found vehable as well as annealing, adding the six dears of history to catch the menners and opinions of Regisla Society in high life—then the dominant power of the realm, at the time Benjamin Franklin and his copariots in this western world were working out the problem of American independence and popular sovereignty."
